Biographical Note

James Joseph Lemmon (1949- ) was born in Highland Park, Illinois. In 1961, his family moved to Santa Rosa, New Mexico and this is where he became interested in geology. In 1967, he enrolled in Colorado Mesa University where he studied forestry and environmental geology. During college, he enlisted in the United States Army during Vietnam where he worked as a marine engineer on harbor crafts and landing crafts. In 1972, he returned to the United States and married Julie M. Lemmon. In 1977, him and his family moved to Arizona and worked in state agencies on water rights and hydrology. In 1984, he started his own water resources and environmental consulting company called Urban Research Associates. Since 2007, James has worked for the Arizona Department of Transportation where he focuses on environmental geology. For 20 years, he has been very involved in the Tempe Elementary School District and on the Governing Board. Currently, James lives in Tempe, Arizona with his cats.
